- Under bust
- Waist
- Hips
- Around top of arm
- Shoulder to elbow
- Shoulder to wrist
- Shoulder to armpit
- Armpit to waist
- Waist to hips
- Waist to knee
- Waist to floor
- Inside leg
- Around thigh
- Around ankle

My Circle Skirt Measurements

Waist

Waist plus 10 cm

Length (waist to knee)

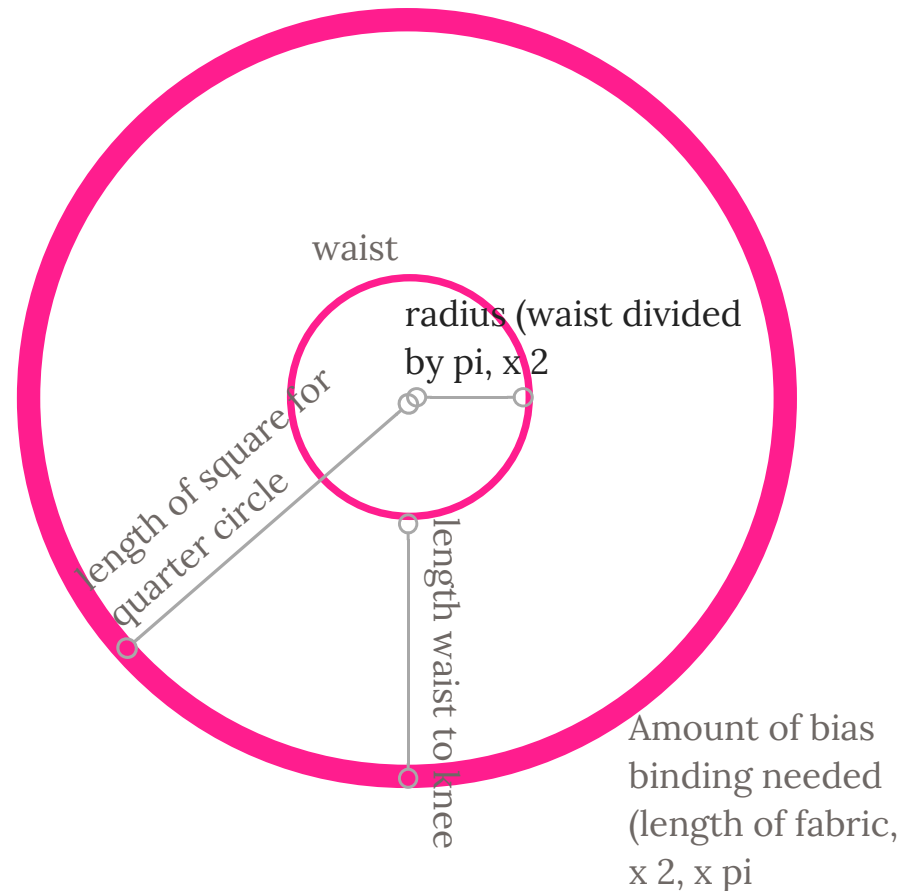

Waist plus 10 cm divided by pi (diameter

Diameter divided by 2 (radius)

Square needed for 1 quarter circle (radius plus length)

Total amount of fabric needed for skirt (radius plus length, x 4)

Amount of bias binding needed (radius plus length, x2, x pi)

Circle Skirt Measurements For Project 6

Waist

Divided by 3

Multiplied by 4

Add 8

Divided by pi

Divided by 2

This is your new radius measurement , ie from the corner of the fabric to the waistline.

For the total length, add this new number to your waist to knee measurement.
